Phone log · Monday 2:10

This page is a practice phone log. It is not medical advice. It does not name a symptom, a medicine, or a test result. The only news is a new day and time for a checkup. For a real health question, ask your clinic. In an emergency, call 911.

Phone log. Monday, 2:10. Nurse Patel called Jana, and Jana called back. The nurse said, "The checkup is on Thursday." She told Jana that the time had changed. She asked Jana to call before 3:00. She asked Jana to bring the appointment card. She asked if Thursday was OK. Jana said yes.

The nurse also said, "We will call you if the room changes." When Jana reports that sentence later, will becomes would. She said they would call her if the room changes. Say does not need a person. Tell does. Jana can say, "She told me the time had changed." She should not say, "She said me," and she should not say, "She told to me."

The call ends before Jana goes home. At home, she tells her brother Ken. Ken was not on the clinic call. Jana is the person who passes the message on. A message needs three details so another person can act: who called, what day, and what to do.

Here is the message Jana would leave. "The nurse said the checkup was on Thursday. She told me the time had changed. She asked me to call before 3:00. She asked me to bring the appointment card. She asked if Thursday was OK. She said they would call me if the room changes."

Ken reads it back. He can say who, what day, and what to do. Who: Nurse Patel. Day: Thursday. What to do: call before 3:00 and bring the appointment card. If one of those is missing, the message is not enough. Add the missing line. Do not add a symptom. There is no symptom in this log.

Write the message in six to eight sentences. Use said or told, asked me to, and asked if. The quote can be the practice message. It should not be a classmate's private life. Keep the note in the folder. Write the callback number only if it is the invented number on this page.

B. Answer the questions.

1. What day is the checkup? _____

2. What did the nurse ask Jana to do first?

   _____

3. What should she bring? _____

4. What did the nurse say about a later call?

   _____

5. Who is the message for? _____

C. Write the message Jana would leave for a family member who missed the call. Six to eight sentences. Use said or told, asked me to, and asked if.

Lesson 6 (Week 6) · Exit Ticket

Name: _____ Date: _____

Report one thing someone said in class tonight. Four sentences.

Use said or told, and asked me to or asked if. The quote can be from the lesson. Then give this page to your teacher.
